FINDING YOUR WAY

This document is filled to the brim with handy navigation controls to enhance your experience. Here is a helpful guide in how to identify them:

-  Navigate your way through the pages simply by clicking on these buttons located at the top right corner of every page.
-   You will frequently see this icon in a variety of colours throughout your journey. These are there to indicate the presence of a link for you to click on.
-  Whenever you see this icon, simply hover your cursor over the top to be see additional information.

Please Note

This document has been designed to work in Adobe Acrobat Reader. To enjoy the full experience, download via the link below:

ABOUT CAMPERKING

Since 2010, we have been taking VW Transporter vans and converting them into luxury campervans that are built for family holidays and adventure.

We have now grown to become the UK's largest VW campervan converter and retailer of VW campervan conversions, with CamperKing comprising a network of dealerships across the UK, a sales and service centre at our HQ in Warmington near Banbury, a production facility in Kineton, Warwickshire, a bodyshop in Bidford-on-Avon, Warwickshire and Quayside Auto, our upholstery business based in Cannock.

From our dedicated production facility, our highly experienced craftsmen produce customised campervans that are then available for sale at our HQ and across our network of dealers around the UK.

MODEL RANGE

ST TROPEZ

8

Our top-selling conversion with extra storage options, plus the choice of either short or long wheelbase layouts, along with a Deluxe upgrade to the rear bed.

MONTE CARLO

14

Our mid-range best-seller, offering a leisure grade microwave, the option of either short or long wheelbase layouts and a Deluxe upgrade to the rear bed.

LE MANS

20

Our compact but fun-loving short wheelbase model, built with families and adventure in mind.

SANTORINI

24

A superb stylish long wheelbase campervan conversion, featuring plenty of storage, a wine rack, and upgraded rear bed.

PORTOFINO

28

Our top specification conversion, featuring a wine rack, a full gas-powered oven, an upgraded rear bed and much more – all on a long wheelbase vehicle.

PURSUIT 2 & 4

32

The Pursuit, CamperKing's latest model, bridges the gap between the popular Volkswagen Kombi and our other campervans.

MODEL COMPARISON

CamperKing has five campervan models to choose from, alongside our day van model, Pursuit. All are available on either short or long wheelbase Volkswagen Transporter vehicles.

It can be confusing at first when faced with the choice between the different models and the options you can select, so we've sought to make it as simple as possible. The table below should be a useful guide to show exactly what to expect when you're looking at one of our conversions. Don't forget, we have lots more information - including video explanations of each model - available on our website: www.camperking.co.uk

All built on a long wheel-base Volkswagen Transporter T5, T6 or T6.1, offering a greater living area in which to relax.

- Three seat CamperKing upgraded rear bed with ISOFIX
- Full leisure-grade gas oven
- Wireless charging pad
- Storage extension
- Available on long wheelbase
- Up to six travelling seats

PORTOFINO

PURSUIT

8 SEATER DAY VAN

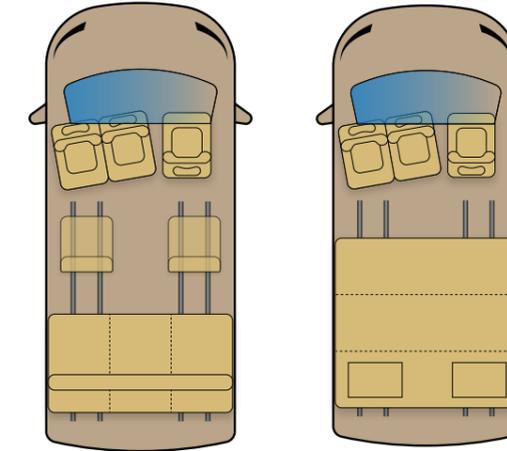

The Pursuit, CamperKing's latest model, bridges the gap between the popular Volkswagen Kombi and our other campervans. Designed for adventure and equipped for off-grid travel, the Pursuit is the ultimate companion to your hobbies, work life and daily needs, sleeping two or four people and providing up to eight seats and offering a huge load capacity for camping gear, bicycles, paddleboards – you name it.

Three 20V lithium batteries keep you powered up while the full-width three-seater bed, sitting on the rail floor system, can be easily deployed for a comfy night's sleep. Available on both a long and short-wheelbase Volkswagen Transporter T6.1.

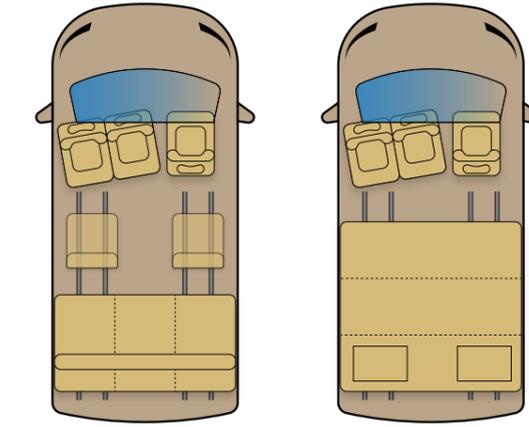

- Frontrunner Slimline Roof Rack System options
- Customisable modular layout
- SWB or LWB VW Transporter base vehicle
- Full-width 3-seater Mobiframe rear bed (sleeps 2)
- Pop-top roof with bed (Pursuit 4 only)
- Rail system with compatible accessories (i.e. cooking, washing, seating)
- High-pressure shower system
- 60-litre underslung fresh water tank
- Optional diesel heater
- Optional swivelling front seats

PART EXCHANGE

We offer you the ability to part exchange your current car, motorhome, or van against one of our campervans.

Part exchange is a great way to get the best price for your current vehicle and use the proceeds of the sale towards the purchase price of a campervan, all while avoiding the usual hassles of selling a vehicle.

Campervans also make a great second vehicle, being versatile enough that you can still use one for your weekly shop, the school run or even your daily commute to work.

FINANCE

To assist you in paying for your CamperKing campervan, we work with multiple finance partners.

With a campervan hire purchase agreement from one of our finance partners, you can borrow any amount from £2,500 and set repayments from two to twelve years. You pay a fixed interest rate and have fixed monthly payments to make budgeting easy.

This is ideal if you want to own your campervan at the end of the finance period, you want to know your exact amount of monthly repayments and do not want a final lump sum payment.

CAMPERKING WARRANTY

Our CamperKing Warranty will provide you with complete peace of mind when purchasing a campervan from us.

All CamperKing campervans are provided with a 12-month warranty from the date of purchase. This will then be renewed every year when you return to CamperKing for your annual habitation check.

This is in addition to any vehicle warranty attached to the campervan, which will be the balance of Volkswagen's three-year warranty and breakdown cover from the date of the vehicle's first registration.

ADD YOUR TOUCH

Do you want your campervan to be an extension of you?

With CamperKing you can personalise your campervan in numerous ways. From lift kits and lowered suspension, to hydro-dipped external and internal trim, we can help you make your campervan truly unique, and a reflection of your own personal taste. The possibilities are almost endless!

YOUR VEHICLE OPTIONS

WHEN BUYING A VW CAMPERVAN FROM CAMPERKING

Buy a ready-made campervan

At our HQ in Warmington near Banbury, we have a forecourt full of campervans for you to choose from. All of these are ready and waiting to be driven away. With a vast selection of campervans available from across our model range, there will be something here for you.

Build your own

If you'd rather choose the exact vehicle and build specification of your campervan, choose our build-to-order service, where you can select everything from the vehicle colour to the design embossed in the upholstery. It's the very best way to ensure you get exactly what you want.

Supply your own van

If you already own a VW Transporter van or you are considering buying one, we can convert it into any campervan model from our range for you in as little as four weeks. We install full campervan facilities including water supplies, electric supplies, gas appliances, and furniture.

We are able to convert the following vans into campervans

VW Transporter Panel Van

VW Transporter Kombi Van

VW Transporter Shuttle Van

ABOUT THE BASE VEHICLE

There are two main specifications of Volkswagen Transporter vehicle that we can offer; Startline and Highline. The key differences are as follows:

Startline

- DAB+ radio system with 6.5-inch touchscreen and four speakers, SD card slot, Bluetooth and two USB interfaces (type C) in dashboard
- App-Connect / Android Auto
- Power steering
- Multi-function steering wheel
- LED interior lighting
- Adjustable steering column
- Electric windows in the cab
- Electrically heated and adjustable door mirrors
- Electronic Stability Control with Brake Assist, ABS, ASR, EDS and Hill Start Assist
- Remote central locking with interior locking
- Anti-theft alarm system

(Plus optional Business Pack, which adds rear parking sensors, cruise control and air conditioning.)

Highline

(Everything from Startline plus the following)

- Adaptive Cruise Control (ACC) with speed limiter
- Electrically heated, adjustable and foldable door mirrors
- Parking sensors, front and rear
- Automatic headlights
- Automatic windscreen wipers with rain sensor
- Body-coloured door mirror housings, door handles and bumpers
- Climatic air conditioning system
- Front fog lights with cornering function
- Heated front windscreen

Adventure Delivered is our UK mainland campervan delivery service.

Buy a campervan from CamperKing and you can choose to have it delivered to a UK mainland address of your choice.

This service is available to anyone who purchases a campervan available on our forecourt at our CamperKing HQ in Warmington near Banbury, or anyone who orders and configures a VW campervan to be built to their specification.

CAMPER KING AMBASSADORS

Mike Brewer
Automotive TV presenter

"I wanted my van converted and CamperKing was the place for me. There's so many options to choose from!"

Alix Popham former Wales rugby international & Head For Change founder

"Being a busy dad and running a charity means I rarely get time to unwind. Getting away in the campervan is the perfect way for us to recharge and reconnect as a family."

Jason Robinson
former England rugby international

"My campervan has been a great addition to the family, perfect for my kids, and ideal for me to use for work and other engagements."

Sonya Mclean,
Club CamperKing member

"Our campervan, which we've named Beauty, has been the best thing to happen to our family, both in terms of our well-being and the many new friends we've met."

Trudi Fletcher,
Club CamperKing member

"We bought our campervan in 2019 and we've just not looked back. We're super proud of it and we like to show it off!"

THE WORK WE DO

Over several years, we've supported numerous good causes with our charitable work, and none more so than Children in Need through our appearances at CarFest, the annual festival for car-lovers. We've also undertaken numerous fundraising efforts for Oscar's Paediatric Brain Tumour Charity, a small but dedicated charity that is very close to our hearts at CamperKing.

At CarFest, traditionally our appearance would involve auctioning a campervan – built over the previous 48 hours on-site at the festival – and donating the proceeds to Children in Need. Over several years, we've raised more than £50,000 for this amazing cause.

In addition we have supported Oscar's Paediatric Brain Tumour Charity, a small but dedicated organisation funding research into childhood brain tumours. Our fundraising efforts have so far included sending a team of staff to climb Ben Nevis and to walk the Yorkshire Three Peaks, along with several other activities.

CLUB CAMPERKING

Our exclusive club for CamperKing campervan owners is known as Club CamperKing. It's the largest owner's club in the campervan industry with more than 2,500 members and growing. And the great thing is, it's totally free to be a member.

The heart of the club is an active and helpful Facebook group, which once you've collected your vehicle, you are welcome to join. Connect with like-minded CamperKing owners, ask for advice, share tips and campsite recommendations and stay up-to-date with the latest news from CamperKing itself, including offers, discounts, and exclusive Club events.

Every year more and more of our members join us for organised trips around the UK and overseas.

You could be there too!

Trip to France

CAMPERVAN JARGON BUSTER

A handy little guide to all the standard campervan terminology you may come across when researching specifications and features.

Term	Definition
4Motion	4Motion is Volkswagen's term for its four-wheel drive models. The engine power is sent to both the front and the rear axle in vehicles utilising this. The benefit of 4Motion is more traction in slippery conditions, this is useful for gravelled roads, rural lanes, and remote campsites.
Adventure Delivered	Adventure Delivered is our campervan delivery service. All of the campervans that we have available at our HQ near Banbury can be delivered anywhere across Great Britain.
Ambient Lighting	Ambient lighting refers to the lighting system used in CamperKing campervans to illuminate the living area of the campervan at night and in low light conditions.
Barn Doors	These are one of the two rear door options on a VW Transporter. Barn doors comprise twin doors hinged on the side of the van and rotate about a vertical point.
Berth	Berth refers to the number of sleeping spaces that the campervan will accommodate.
Business Pack	A specification upgrade usually applied to Startline Transporters, featuring the addition of cab air conditioning, rear parking sensors and cruise control.
Campervan Conversion	A campervan conversion is a campervan that has been built bespoke using an existing van as the base vehicle. All of our campervans are built using VW Transporter panel vans and are converted into luxury campervans at our dedicated production facility.
CamperKing Upgraded Bed	The CamperKing Upgraded Bed is our exclusive campervan seat/bed solution that brings safety, comfort, ease of use, ISOFIX, and market leading rear boot space.

Term	Definition
Dealer	Dealers are our authorised stockists of CamperKing campervan conversions. Our CamperKing authorised dealer network spans the UK.
Diesel Heater	A diesel heater is the type of night heater that we use in CamperKing campervans. Diesel heaters utilise diesel fuel to heat the campervan when the engine is switched off. As all of our campervans are diesel VW Transporters, the diesel heaters we use are connected directly to the vehicle's fuel tank to supply them with fuel. This means that there is no need for a separate fuel tank.
DSG	Short for direct shift gearbox, DSG campervans have the ease of an automatic but with the responsiveness of a manual. DSG vehicles utilise a dual-clutch system and can either be used with the fully automatic gearbox or as a responsive quick-shift manual.
Electric Hookup	An electric hookup is a power outlet at a campsite which is utilised with a mains cable to enable you to power the electric appliances in your campervan.
Frontrunner Roof System	A modular racking system fitted to our Pursuit model's roof, and capable of carrying items including roof tents, jerry cans and storage accessories.
Gas Locker	A gas locker is the storage compartment for the gas bottle in your campervan. Mandatory for safety, gas lockers are a sealed unit and are equipped with a vent that allows the gas to escape in the event of the gas bottle leaking.

Term	Definition
Habitation Check	A habitation check is an annual check that we undertake on your campervan to ensure that it is safe to stay in. Our campervan habitation checks include gas retesting, electrical performance tests, and water system checks. For you to preserve your CamperKing campervan's 12-Month warranty, we ask that you bring it back to us annually for a habitation check.
Hardstanding	A hardstanding is the name often given to a campervan's pitch at a campsite. This is typically an area surfaced with a hard material that provides a convenient space to park your vehicle.
Highline	The Highline is the highest spec VW Transporter. Typically, a Highline VW Transporter provides features including air conditioning, a heated windscreen, automatic headlights, electric and heated door mirrors, front fog lights, rain sensing windscreen wipers, adaptive cruise control, and front and rear parking sensors.
Hire Purchase	A means of purchasing a campervan using arranged finance. A hire purchase agreement allow you to pay an agreed deposit then fixed monthly payments for the duration of the finance term, meaning you can budget effectively for your purchase.
Jump Seat	A removable single seat that can be used with our Pursuit model's rail floor system to provide an additional travelling seat.
Kombi	One of three styles of donor van that can be converted by CamperKing. A Kombi is traditionally a VW Transporter with a second row of seats behind the driver and first passenger, with cargo space behind them.
Leisure Battery	An additional battery fitted into the conversion, used to run the power systems and operate the lights, water pump and diesel heater controls.
LWB	LWB is short for long wheelbase. We currently build our campervan conversions on VW Transporter T6.1 vans, which are available in LWB and SWB (short wheelbase). The LWB version of a VW Transporter T6.1 is 5.3m long, whilst the SWB version is 4.9m.
Mobiframe Bed	The full-width seating/bed system added to our Pursuit model, which operates on rails and converts to a double bed for night-time use.
Panel Van	The style of donor van most commonly used for campervan conversions. A panel van is a VW Transporter with a large empty cargo area, and a bulkhead separating the front cabin and seats from the load-carrying area.
Pop Top Roof	A raising roof fitted to each conversion that sits on hydraulics and can be raised for additional head height during the day, and lowered for use as a second bed at night. With fastenings for use in transit.

Term	Definition
PMS	PMS stands for Power Management System. This is the control system used inside your campervan to control functions such as the lights and water pump and to monitor the conversion's essential systems, such as water level and battery health.
PS	PS stands for pferdestärke, a German word that translates to horse strength in English. The is the most commonly used measurement of measuring engine power in Europe and is the exact equivalent of horsepower.
RIB Bed	A premium style of rear seat fitted to the campervan conversion consisting of three separate parts that can be adjusted and ultimately converted into a bed for night-time use.
Rock and Roll Bed	A simple to operate one-piece seat and bed system on gas-assisted hydraulics that converts to a rear bed in one straightforward motion.
Shuttle	A type of VW Transporter that can be used as a donor van for a CamperKing conversion. A Shuttle is usually a Transporter van that has three rows of seats, and can seat as many as nine passengers.
Startline	The starting specification for all new VW Transporters, featuring Bluetooth connectivity, power steering, electric windows, adjustable door mirrors and a theft alarm.
SWB	SWB is short for short wheelbase. We currently build our campervan conversions on VW Transporter T6.1 vans, which are available in SWB and LWB (long wheelbase). The SWB version of a VW Transporter T6.1 is 4.9m long, whilst the LWB version is 5.3m.
Tailgate	These are one of the two rear door options on a VW Transporter. A tailgate comprises one door hinged on the top of the van and rotates about a horizontal point.
Travelling Seats	These are the seats in a campervan that are used by the driver and passengers whilst driving.
Two Tone	Two tone refers to a campervan that utilises a custom combination of colours, with the top layer of the vehicle a different colour than the bottom layer.
VW Assist	The three-year breakdown and care package provided by Volkswagen to all new VW owners, the balance of which is provided when you buy a pre-registered campervan from CamperKing.
VW Transporter	The VW Transporter is a van series that has been produced by Volkswagen, since 1949. We currently build our campervan conversions on VW Transporter T6.1 vans. These were first launched in 2019 and continue to be produced.
